 Name: _____

Dot-to-Dot Surprise: 1 to 20

Start at the black dot. Connect the dots in order from 1 to 20, then back to 1. What did you make? Add a star on top and decorate it!

💡 **For grown-ups: why it works.** Dot-to-dot practices the counting order past 10 (11, 12, 13…) and finding the next number among many. The zigzag edges are slanted lines, the same strokes inside letters like v, w, x and z.
