Name: _____

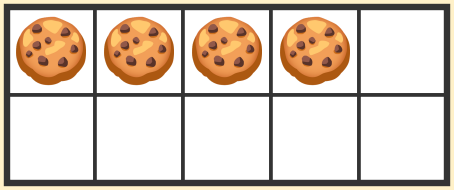

Fill the Cookie Tray: Make 10

Each tray holds 10 cookies. Count the cookies. Draw more cookies in the empty spots until the tray is full, then write how many you added.

7 + ____ = 10

Draw cookies in the empty spots, then write how many more.

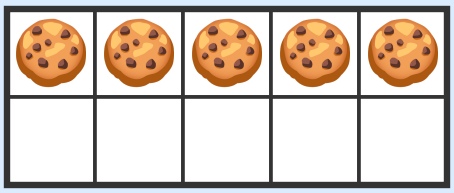

4 + ____ = 10

Draw cookies in the empty spots, then write how many more.

9 + ____ = 10

Draw cookies in the empty spots, then write how many more.

5 + ____ = 10

Draw cookies in the empty spots, then write how many more.

2 + ____ = 10

Draw cookies in the empty spots, then write how many more.

💡 **For grown-ups: why it works.** Knowing the pairs that make 10 (7 and 3, 4 and 6) is one of the most useful number facts in early math: later it makes adding and subtracting much faster. The ten-frame lets children see the empty spots instead of guessing. Answers: 3, 6, 1, 5, 8.
