Name: _____

How to Draw a Bunny

Follow the steps: each picture adds one new part (the dark lines). Then draw your own bunny in the big box!

1

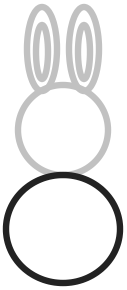

Draw a circle for the head.

2

Add two long ears.

3

Draw a big oval body.

4

Draw the face.

5

Add whiskers and big feet.

6

Add a fluffy tail.

Your turn! Draw your bunny here.

Then color it in!

💡 **For grown-ups: why it works.** Directed drawing breaks a picture into simple shapes, one step at a time. Children practice looking closely, following directions in order and controlling circles, lines and curves, the same shapes that make letters. Every drawing will look different, and that is the fun part!
