How to Draw a Cat

Follow the steps: each picture adds one new part (the dark lines). Then draw your own cat in the big box!

1

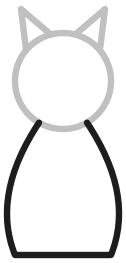

Draw a circle for the head.

2

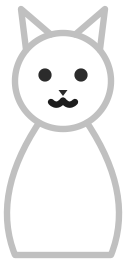

Add two pointy ears.

3

Draw a big body.

4

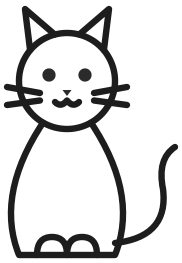

Draw eyes, a nose and a mouth.

5

Add whiskers.

6

Add paws and a curly tail.

Your turn! Draw your cat here.

Then color it in!

💡 **For grown-ups: why it works.** Directed drawing breaks a picture into simple shapes, one step at a time. Children practice looking closely, following directions in order and controlling circles, lines and curves, the same shapes that make letters. Every drawing will look different, and that is the fun part!
