Name: _____

🏠 How to Draw a House

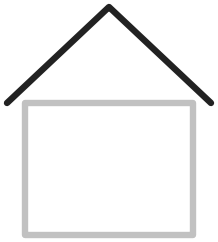

Follow the steps: each picture adds one new part (the dark lines). Then draw your own house in the big box!

1

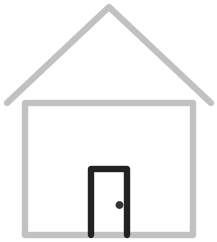

Draw a big square.

2

Add a triangle roof.

3

Draw a door.

4

Add two windows.

5

Add a chimney and smoke.

6

Draw a sun and some grass.

Your turn! Draw your house here.

Then color it in!

💡 **For grown-ups: why it works.** Directed drawing breaks a picture into simple shapes, one step at a time. Children practice looking closely, following directions in order and controlling circles, lines and curves, the same shapes that make letters. Every drawing will look different, and that is the fun part!
