Name: _____

How to Draw a Penguin

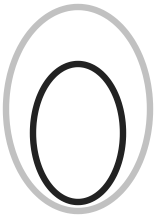

Follow the steps: each picture adds one new part (the dark lines). Then draw your own penguin in the big box!

1

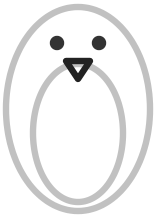

Draw a tall oval.

2

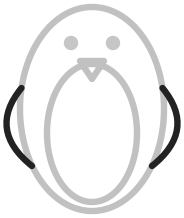

Draw a smaller oval inside.

3

Add eyes and a beak.

4

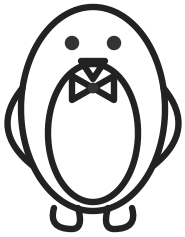

Draw two flippers.

5

Add two feet.

6

Give it a bow tie!

Your turn! Draw your penguin here.

Then color it in!

💡 **For grown-ups: why it works.** Directed drawing breaks a picture into simple shapes, one step at a time. Children practice looking closely, following directions in order and controlling circles, lines and curves, the same shapes that make letters. Every drawing will look different, and that is the fun part!
