🚀 How to Draw a Rocket

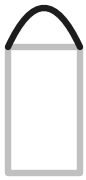

Follow the steps: each picture adds one new part (the dark lines). Then draw your own rocket in the big box!

1

Draw a tall rectangle.

2

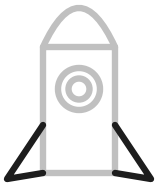

Add a pointy top.

3

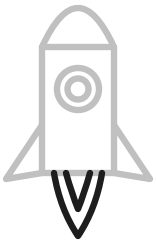

Draw a round window.

4

Add a fin on each side.

5

Add fire!

6

Add stars in the sky.

Your turn! Draw your rocket here.

Then color it in!

💡 **For grown-ups: why it works.** Directed drawing breaks a picture into simple shapes, one step at a time. Children practice looking closely, following directions in order and controlling circles, lines and curves, the same shapes that make letters. Every drawing will look different, and that is the fun part!
