 Name: _____

How to Draw a Owl

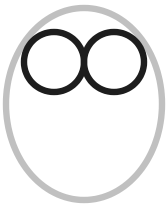

Follow the steps: each picture adds one new part (the dark lines). Then draw your own owl in the big box!

1

Draw a big egg shape.

2

Draw two big circles for eyes.

3

Add pupils and a beak.

4

Add pointy ear tufts.

5

Draw a wing on each side.

6

Add feathers and feet.

Your turn! Draw your owl here.

Then color it in!

💡 **For grown-ups: why it works.** Directed drawing breaks a picture into simple shapes, one step at a time. Children practice looking closely, following directions in order and controlling circles, lines and curves, the same shapes that make letters. Every drawing will look different, and that is the fun part!
