 Name: _____

Dot the Letter P

Dab a dot marker in every circle. Start at the green 1 and follow the letter the way you write it. No markers? Use stickers, paint on a fingertip, or crayon dots.

P is for
pig

💡 **For grown-ups: why it works.** Dot markers build hand strength and hand-eye coordination for little hands. The dots follow the real pencil path of P and p, so dabbing them in order teaches how the letter is written. Say the letter's sound as you go: P says /p/ like pig.
