 Name: _____

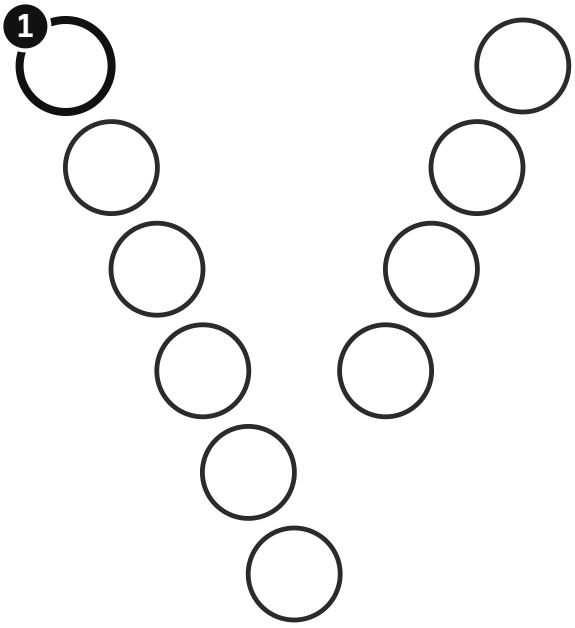

Dot the Letter V

Dab a dot marker in every circle. Start at the green 1 and follow the letter the way you write it. No markers? Use stickers, paint on a fingertip, or crayon dots.

V is for
van

💡 **For grown-ups: why it works.** Dot markers build hand strength and hand-eye coordination for little hands. The dots follow the real pencil path of V and v, so dabbing them in order teaches how the letter is written. Say the letter's sound as you go: V says /v/ like van.
