Name: _____

Love Bug: answer

Find the number in each space. Color it with the crayon that has the same number. Count the dots in the key if you need help!

Key

2 — pink

4 — brown

5 — green

6 — yellow

9 — light blue

10 — red

💡 **For grown-ups: why it works.** The key shows each number and its dots in a ten-frame, so a child who doesn't know 8 yet can count to it. That links the numeral to the amount, the step most color-by-number pages skip. Next step: color by dot sums.
