Name: _____

How to Draw a Love Bug

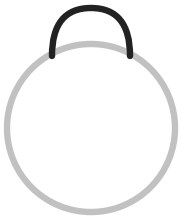

Follow the steps: each picture adds one new part (the dark lines). Then draw your own love bug in the big box!

1

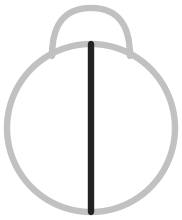

Draw a big circle for the body.

2

Add a round head on top.

3

Draw a line down the middle.

4

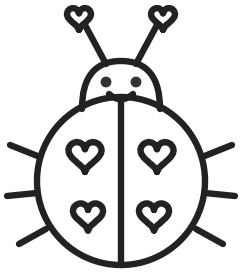

Add hearts on its back.

5

Add antennae with hearts.

6

Add eyes, a smile and legs.

Your turn! Draw your love bug here.

Then color it in!

💡 **For grown-ups: why it works.** Directed drawing breaks a picture into simple shapes, one step at a time. Children practice looking closely, following directions in order and controlling circles, lines and curves, the same shapes that make letters. Every drawing will look different, and that is the fun part!
