 Name: _____

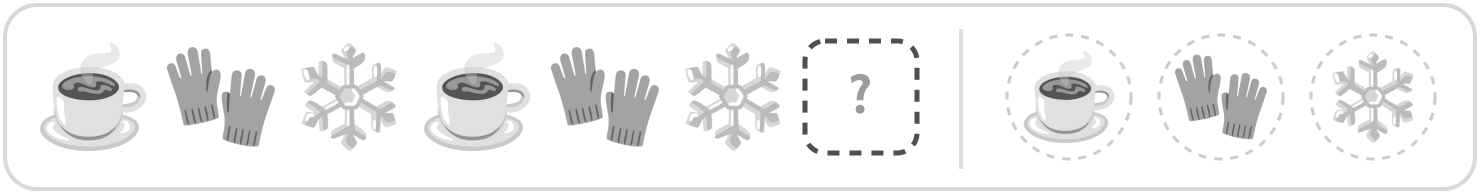

What Comes Next?

Say each pattern out loud: "snowman, snowflake, snowman, snowflake..." Then circle the picture that comes next. You can draw it in the ? box too!

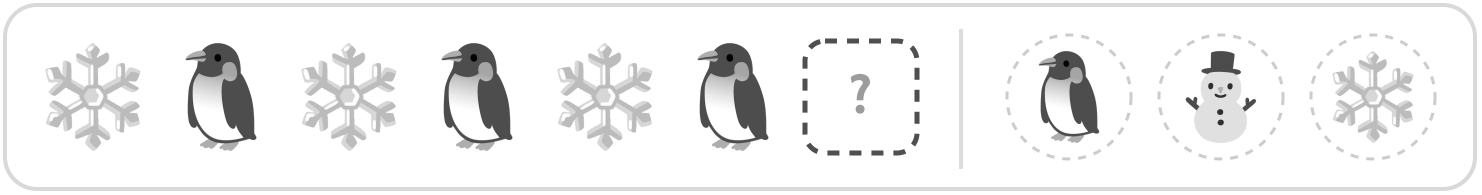

💡 **For grown-ups: why it works.** Patterns are early algebra: children find the part that repeats (AB, AAB, ABB, ABC, AABB) and use it to predict. Saying the pattern aloud makes the rhythm easy to hear. Answers: snowman, mitten, penguin, cocoa, penguin, snowflake.
